### Building Surveyor

#### Description

***Up to £42,000 plus mileage allowance, stakeholder pension and profit share***

Our client is a privately owned and operated professional building practice that offer a full complement of services to include, design, project management, building surveying, and quantity surveying.

Due to an increased demand, they have created a new position that would suit a versatile Building Surveyor or Project Manager who could fulfil a dual design/project management role. As a small business you will have the opportunity to get involved at the front end with design reviews, cost planning and programming, through to project delivery of multiple projects up to £10m in value.

They have a wide client base, spanning the care sector, health, education and private/spec housing and work with contractors, developers, end clients and investors. Candidates are likely to be from a Building Surveying or Construction Management background. A good all-round knowledge of building and general construction methodology, along with a commercial mind and ability to administer JCT Design and Build contracts is sought. Previous experience of managing JCT 2016 forms of contracts would be a distinct advantage.

Our client promotes further education and personal development and it would be a great environment to establish a career and achieve professional accreditation (Chartership), should you wish to do so.

Please [upload your CV](#) in strict confidence through our website quoting the reference: Building Surveyor JP650
