### CAD Designer

#### Description

**CAD Designer | AutoCAD Technician | Architectural Metalwork | Construction | Hertfordshire**

**Up to £55,000 per annum plus pension**

Our client is a long-established privately-owned specialist sub contractor, who are enjoying a period of planned expansion. They have an impressive client base and strong order book which has created an opening for an ambitious CAD designer to join their design team.

The role will be predominantly office-based producing drawings using CAD, predominantly in 2D but as the use of BIM and Revit increases along with client demand, the necessity to produce 3D drawings using 3D Solidworks is key.

Key criteria:

- Previous architectural metal work / manufacturing experience gained in the UK
- Construction Industry experience
- Ability to produce 3D drawings using Solidworks

Candidates must already be living within a daily commute of their offices in Hertfordshire. You could be from a specialist subcontracting background or an inhouse designer from a manufacturer with two or more years' experience in this specialist field.

This is rare opportunity to work for a privately owned and operated business who have an excellent name in the industry and can offer long term career prospects and development.

Please apply below or upload your CV in strict confidence through our website quoting the job reference: CAD Technician JP872
