CAD Technician

Description

CAD Technician | Joinery | Construction | East London

Up to £45,000 per annum plus pension

Our client is a long-established privately-owned specialist sub contractor, who are enjoying a period of planned expansion. They have an impressive client base and strong order book which has created an opening for an ambitious CAD designer to join their production/manufacturing team.

The role will be predominantly office-based producing drawings using CAD, predominantly in 2D but as the use of BIM and Revit increases along with client demand, the necessity to produce 3D drawings will naturally do so.

Key criteria:

- Previous joinery / manufacturing experience gained in the UK
- Construction Industry experience
- Able to produce cutting sheets

Candidates must already be living within a short commute of their offices in East London. You could be from a joinery or design background with two or more years' experience in this specialist field.

This is rare opportunity to work for a family business who have an excellent name in the industry and can offer long term career prospects and development.

Please upload your CV quoting the job reference: CAD Technician JP834
