Construction Project Manager

Description

Construction Project Manager | Steel | Metalwork | North London

Up to £65,000 plus private health, mileage allowance, pension & annual bonus

Our client is well-established in the specialist field of structural and architectural metalwork, designing, fabricating and installing their products on commercial building projects throughout London and the Southeast, working closely with tier 1 & 2 contractors. As part of their planned expansion they have a new opening for a Project Manager to join their team. This role would suit someone who has had prior exposure with an allied business such as curtain walling, steel or architectural metalwork contractor in a Project Management capacity in the UK.

You are now looking to further your career within a well reputed business that will allow you to fulfil your aspirations and run your own projects with complete autonomy. **A degree is not essential.**

A FULL UK DRIVING LICENCE IS ESSENTIAL.

Please apply below or [upload your CV](#) directly through our website quoting the reference: Project Manager JP974
