Description

Design Manager | Technical Manager Construction | Architectural Metalwork | Hertfordshire

Up to £75,500 per annum plus health, pension, car allowance and annual bonus

Our client is a long-established privately-owned specialist subcontractor, who are enjoying a period of planned expansion. They have an impressive client base and strong order book which has created an opening for a Design Manager to run their in-house design team, of six designers.

The role will be office-based producing drawings using CAD 2D and 3D and SolidWorks.

Key criteria for Designer Manager role:

- Previous architectural metalwork, structural steel or facade design experience gained in the UK
- Construction Industry experience is essential
- Ability to produce 3D drawings using Solidworks

Candidates must already be living within a daily commute of my client's offices in Hertfordshire. You could be from a specialist subcontracting background or an in-house designer from a manufacturer with two or more years' experience in this specialist field.

Please upload your CV in strict confidence through our website quoting the job reference: CAD Technician JP1069
