### Freelance Project Planner Construction

#### Description

**Freelance Project Planner – Construction – Major Project – London**

***Up to £450 per day shift***

Our client a prestigious Development Management organisation is in the market for a Project Planner / Auditor to manage the post contract planning activities on a flagship development in London.

**This is not a programming role.** You will work closely with the supply chain partners and oversee the principal contractor and associated consultants on progress, working closely with the design and commercial teams to deliver lean construction methods.

To meet these challenges, the successful applicant will require the unique skills of a highly proficient and technically skilled planning professional with previous experience of complex buildings in excess of £100 million in value. A minimum of five years' experience gained in the UK Construction Industry on building projects, not rail or heavy civils.

A strong understanding of auditing and value engineering concepts, as well as an excellent knowledge of Asta Power project software is essential.

Please [upload your CV](#) in strict confidence through our website quoting the reference: Freelance Project Planner JP748.
