

Trainee Project Manager

Description

Speyhawk Ltd are recruiting for a Junior Project Manager Construction / Contracts Manager for a main contractor in Hertfordshire.

Up to £35,00 plus mileage allowance, health and pension (after applicable probationary period)

Our client is a well-established traditional contractor from Hertfordshire. They have a rare opportunity for a Junior Project Manager to join their delivery team. This role would suit someone who has already had some exposure in the Construction Industry, in either a trainee Site Management, Contracts Management or Quantity Surveying role.

You are looking to forge a career within a well reputed business that adopt traditional values and will give you the time and training to fulfil your aspirations to run your own projects in the near future.

Projects are retail by nature and include fast track fit out of major stores, refurbishments and minor/maintenance works. Whilst based in Hertfordshire, projects can be national and any additional costs will be reimbursed along with accommodation where necessary.

You will embark on a structured training programme, shadowing a Senior Contracts Manager, visiting sites, meeting clients, measuring up and arranging appointed subcontractors for projects. A professional and methodical approach to your work is key, in addition you will be computer literate and proficient with Outlook and Excel.

A FULL UK DRIVING LICENCE IS ESSENTIAL.

Please apply below or upload your CV through Speyhawk's website, quoting the reference:
