Quantity Surveyor

Description

Quantity Surveyor | Estimator | Specialist Contracting | Hertfordshire

Up to £75,000 plus company car & private health

Our client is a leading specialist sub-contractor that is highly successful in the delivery of scaffolding and temporary works for major construction projects within London and the M25. They have an impressive client base and portfolio of landmark buildings working with tier one contractors.

They are now seeking an Estimator to join their team and would consider someone from a Quantity Surveying background who is looking to potentially develop their career in Estimating. They operate a flexible approach to tendering which includes competitive, traditional bills of quantities, design and build as well as spec and drawings.

You will have a proven track record as an Estimator or QS in the 'building' industry, in either main contracting or specialist contracting (minimum 5 years plus experience working in the UK), with demonstrable experience of pricing jobs up to £250,000 in value. At interview you will be able to illustrate, giving examples of projects where you have aided the bid development process.

The appointment offers a unique career opportunity and the successful candidate will be involved in the future development of the business, working closely with the commercial, design and marketing teams. This is a real opportunity for someone looking to forge a career with a progressive company that retain and reward their staff for personal achievement.

Please upload your CV in strict confidence to Jamie Pearson quoting the reference number: Estimator JP786
